

HONORABLE GEORGE J. ALBRIGHT III VOLUME 2017-2

Redesigned Florida Driver Licenses

Marion County has begun issuing the new and improved driver licenses as of October 24th. Previous driver license and ID cards will still be in use alongside the new credential until they are replaced or phased out. By the end of December 2017, all Florida driver license offices will be issuing the newly designed driver license, including DHSMV's online website.

The new driver license provides Floridians with almost double the security features than the current driver license and is the most secure over-the-counter credential on the market today.

Have you ever wondered what would happen if you were in an emergency situation and you were unable to communicate? How would you notify your loved ones?

**EMERGENCY CONTACT
INFORMATION**

You can register or update your emergency contact information (ECI) with our office during a driver license transaction or a registration transaction. This information is saved in a secure database that only Law Enforcement has access to and can only be used in the event of an emergency nationwide. You can also register your information online by visiting.

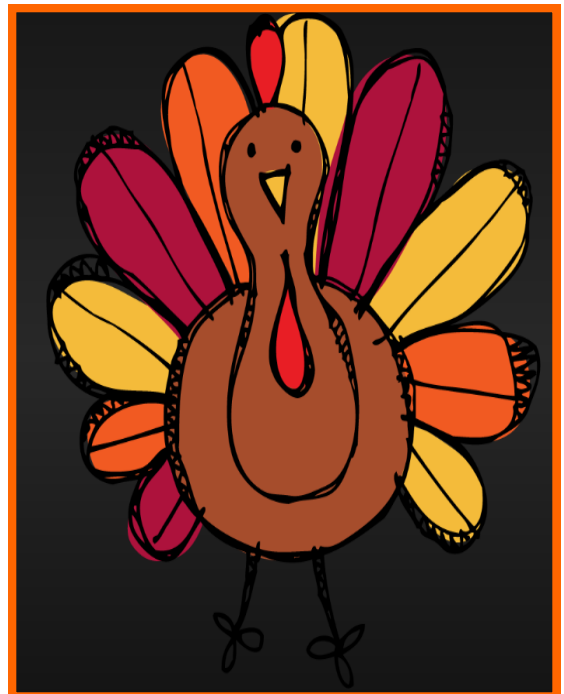

<https://services.flhsmv.gov/eci/>

Currently 79% of all driver license transactions in Marion County contain emergency contact information.

So often we come across others who are in dire need of help. As an office we strive to reach out to others in need of assistance in our community, as we feel it is very important to give back to our great community.

Annually our offices collect donations towards the purchase of turkeys. The turkeys that are purchased with these funds are donated to Interfaith Emergency Services. Join us in helping a family in need during this holiday season by donating \$5 for the purchase of a turkey. Donations can be made at any location with any clerk. We were able to donate 750 turkeys last year and we are hoping to beat that record this year!
